

The diagram illustrates a network topology. At the top center is a computer labeled 12. Below it are three more computers labeled 14. These three computers are connected to a central hub or router labeled 16. From this central hub, three lines extend downwards to three more computers labeled 16. The central computer 16 is further connected to a laptop labeled 22 and a mobile phone labeled 20. The mobile phone 20 is connected to a base station labeled 18. The base station 18 is connected to a central hub or router labeled 16. The central hub 16 is also connected to a computer labeled 12. The entire network is labeled 10.
